About behaviour of our company animals

- 10 years of evolution
- The utilitarian animal becomes pet.
- Evolution of the place of weak ones in this world in the mind of man:
 - Slaves, women, animals.
- Analysis of the human behavior, Freud, Yung
- Masters become responsible owners.
- The veterinarians have patients.

A necessary evolution

- The inheritance of civilizations
 - A recent awareness in Story of humanity: science and consciousness, subconscious, unconscious.
- The human behavior versus animal behavior.
- The Chinese Traditional Medicine

An observation about 10 years

- The points of management of the mental have a favorable influence on the physical appearance.
- Regulation of physical problems modifies behavior problems.
- A TCM evidence

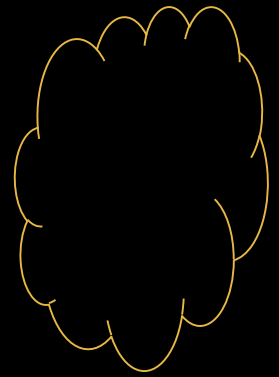

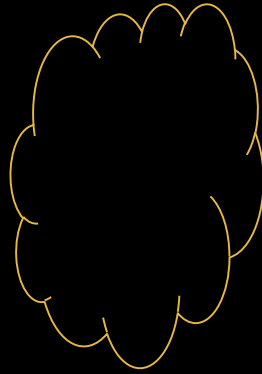

behaviour

- Definition:
- In french: Comportement signifie to bring with
Understanding to be with the others
- In english : behaviour coming from an old word wich mean to have.
- Understanding to poseed the life Way of Having reports, relationships with the others.
- Depends on conditions of the life of the individual in the group.
 - By his(her,its) appropriate constitution. (Nature)
 - By the quality and the quantity of the daily energy contributions.
(maintenance for healthy body and mind) struggle for life.

The behavior modifications

- Disturbance of the common and current attitudes in the group.
(Social aspect, hierarchy, sexuality)
- Disturbance of the acquisition of the daily energies.
 - The energy of the Air
 - The energy of Food
 - The energies of the thoughts
- The MTC is an environmental medicine for a long time. (Ecological perception prematurely.)
- The theory to strengthen the practice.

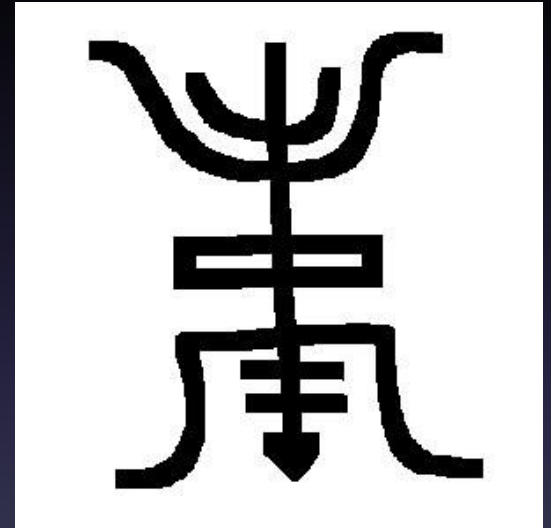

La construction du corps

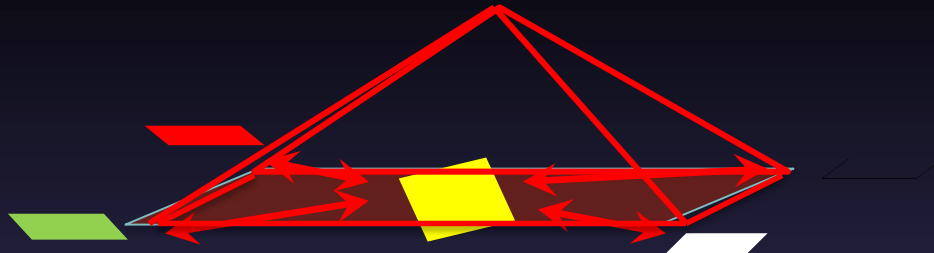

way of energies,

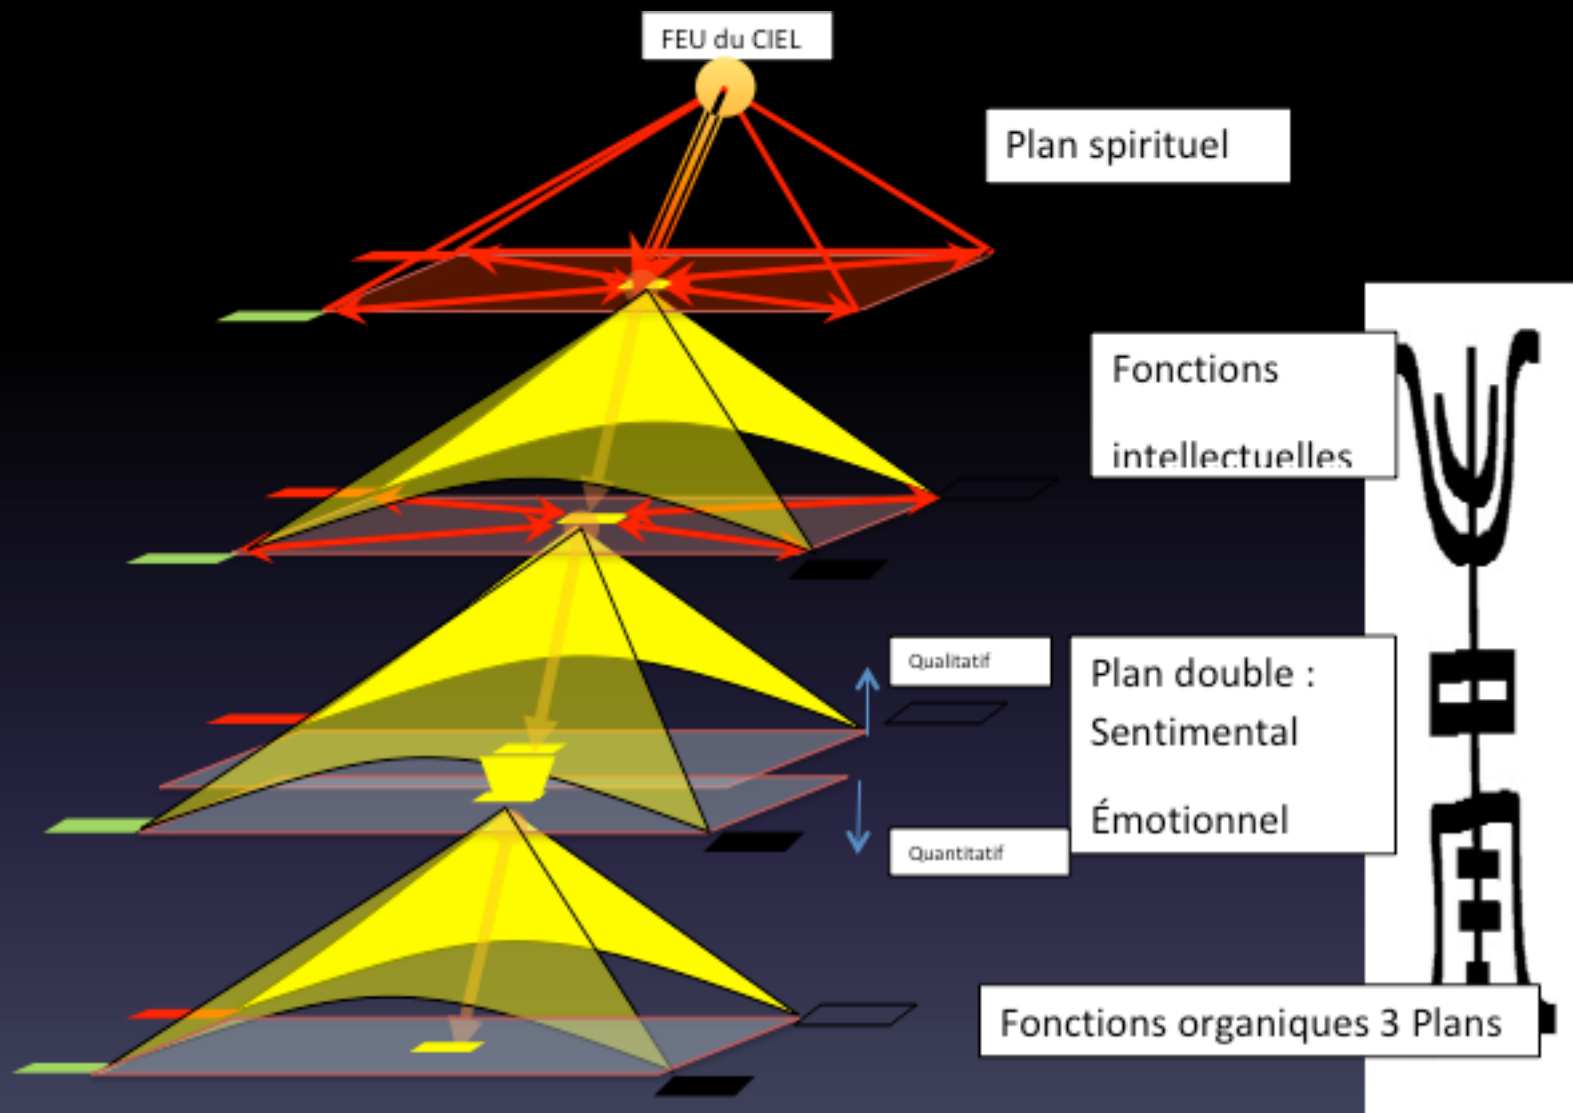

- Creatures are the appearance of the Sky on the Earth.
- 7 plans of the Man
- ? Plans of the animal
- What can help us in understanding of the behavior, the life?
- The construction of the body according to J.A. LAVIER.

Subtil pure energy

Density Pur mater

Vision of the eagle or the tortoise

- Closeness with the modern physics:
- Vibratory nature of life ,condensation of energy.
- Infinitely big constituted as the infinitesimal.

Infinitesimal objects are elementary Quarks in atoms.

- This is actually suggested by Fractals.
- 5 elements organization: base of réflexion.

A HYPOTHESIS

- It is the energy of the cosmos that creates any things. The light. *
- An uneven condensation in quality and in quantity: can create different formes In the creation (previous Sky) structur and physiology
 - Reigns
 - Species with internal variations (Races)
- In the maintenance of the life (posterior Sky)
 - Definition of the individual, his character and its behavior

Spiritual entities

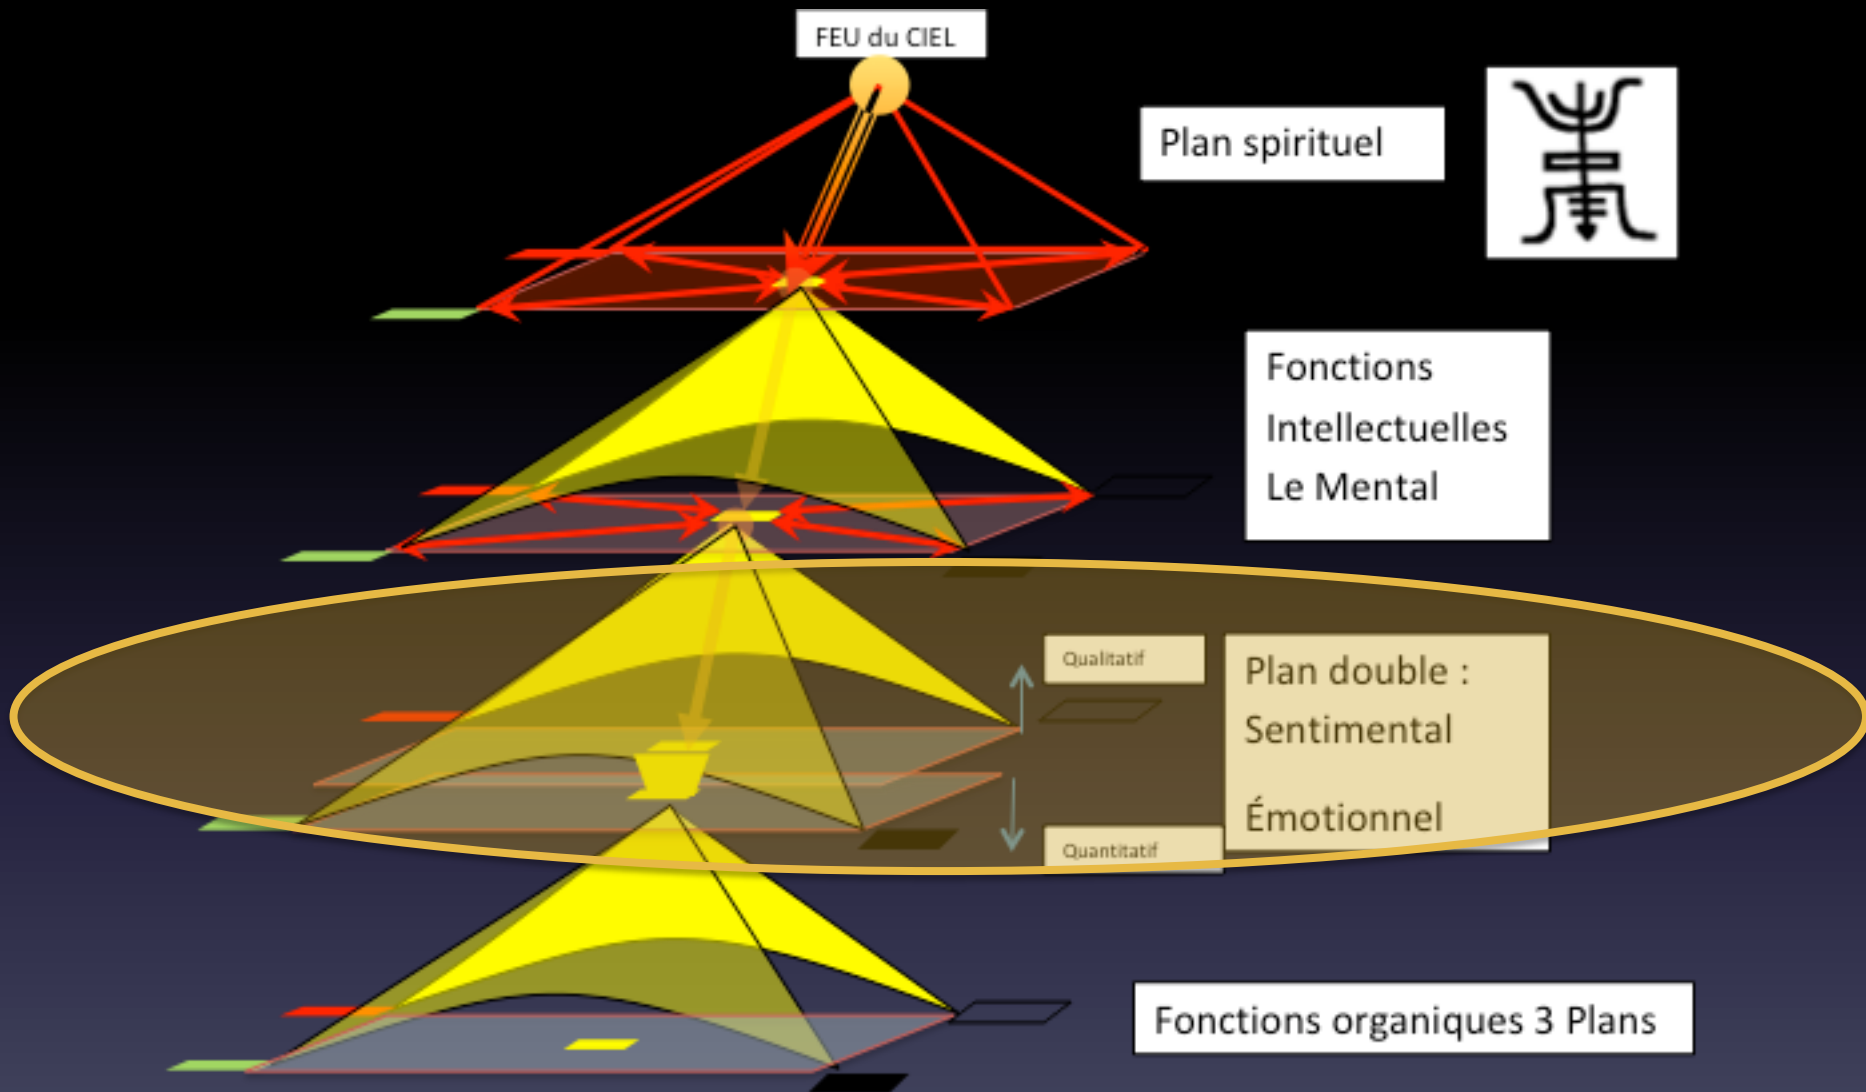

- Shen :organizing power, consciousness,The light
- Hun: Capacity to visualize , Imagination, the Unconscious
- Zhi: Will to live, the strength, the shape.
- Po: Instinct of survival, Identity, Structure of the body
- Yi :Intention, Thought, mental and immunizing Memories

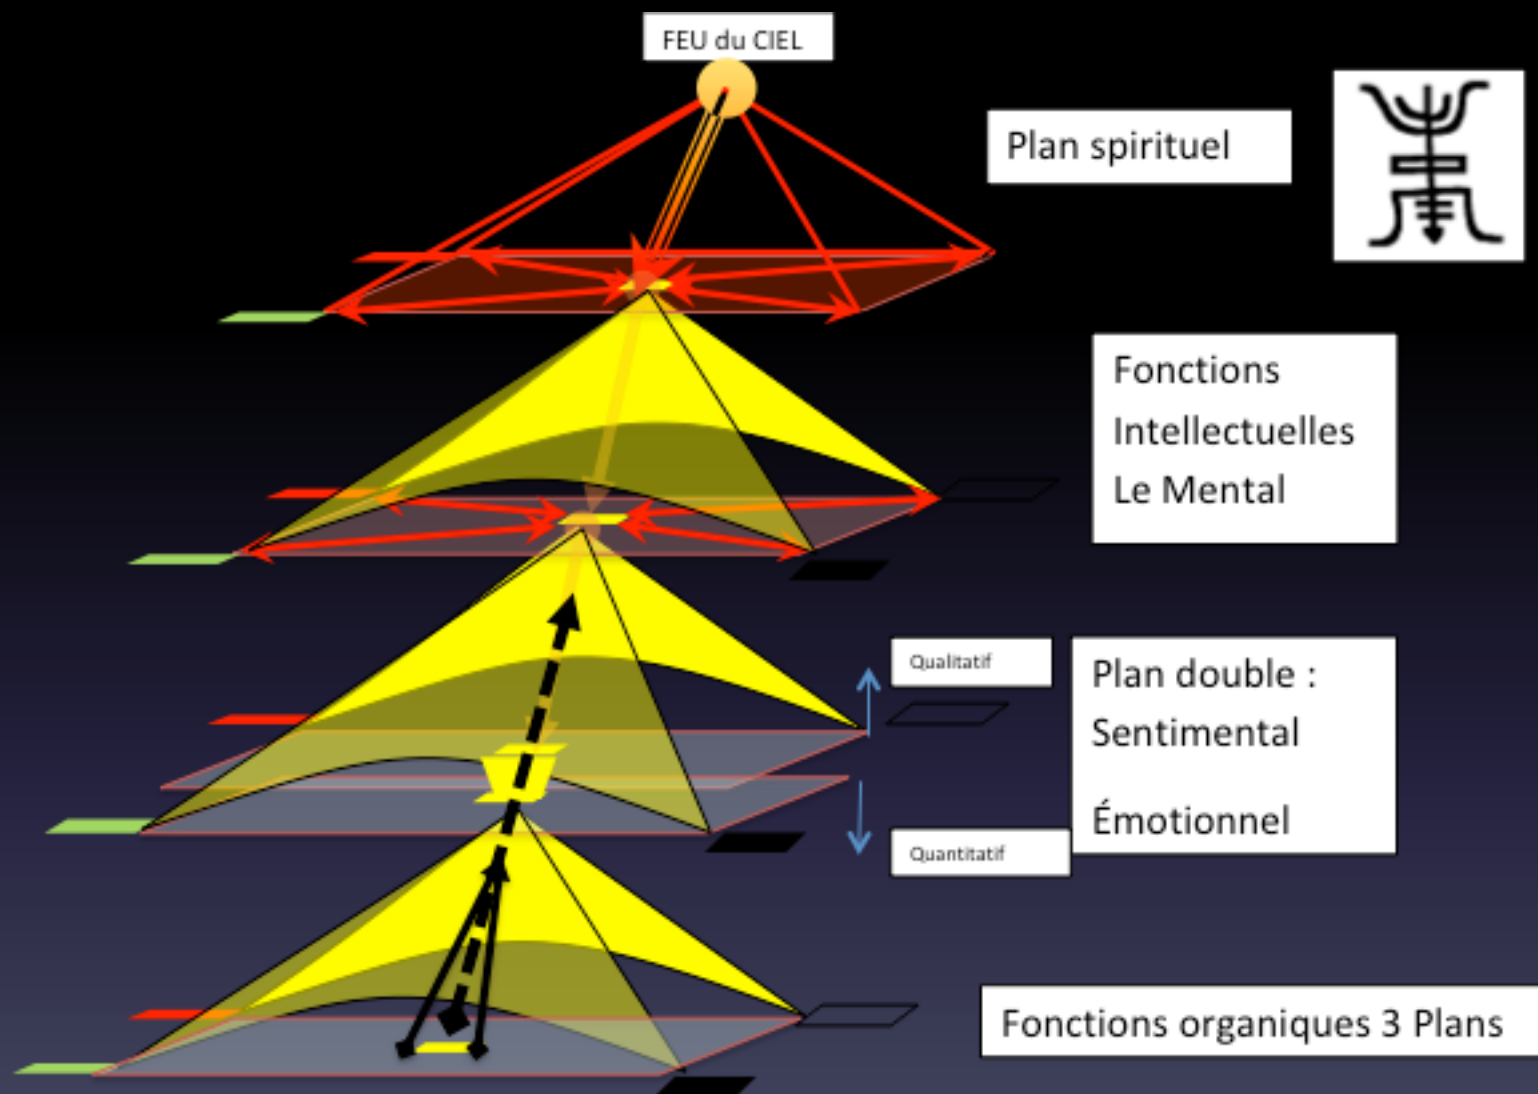

Spiritual entities and feelings

- *Shen belongs to Heart and govern enjoyment*
- *Hun belongs to Liver and govern anger*
- *zhi belongs to Kidney and govern scare*
- *po belongs to Lung and govern sorrow*
- *yi belongs to Spleen and govern réflexion*
- Feeling comes from an intellectual way of living.
- Emotion is the physical form of feeling, it means to move with. The body moves physiologically, and physicaly, with a trouble state of mind, with agitation signs.

Return on initial thought

- Personal experience
- The behavior of our animals recover the pallet of those of Man (except reports(relationships) with money.
- In practice with regard to 7 plans of the man.
- Origin of disorders(confusions):
- + Frequent generation in the intermediate double floor: sentimental +, emotional ++
- Disturbance of the somatic floors relation with pain.

Our working bases

- The concept of structuring of energies.
 - The concept of free circulation of energy.
 - In acupuncture and in osteopathy (rule of artery) *
 - A good Listening of the body " Only tissues know "
- Rollin Becker
- The principle of action on energy by needles and osteopathic "manipulations"

Our working line

- RESTORE AXES.
- FACILITATE the route of the energy on the vertical axis.
- FAVOR the distribution of the energies by the earth at every level by calling on to the essential energies.
- FREE the emotional zones.
- USE ancestral points.

Vertical axis= Axis of continuity

- Big traffic circulation

– Action on Governor vessel- Conception vessel.

Essential energies

- Nourishing energy control
 - 36 St
- Defensive energy control
 - 4 L.I
- Gate points
 - 3 Liver
 - 4 L.I

Emotional level

- *Pericardium zone*
- Two tecnics
 - Manual Smooth liberation of scapula.
 - Using points on the definted points

Ancestral points

- « gui » or « kouei » named Points of ghosts

In a non esoteric system: it means catering of vertical axis, Gather and Combine to restore the communication Yin-yang.

- 26 GV a famous points for Resuscitation. Return of the soul in its body, return in consciousness, return in being status. (Considered as master of vertebral column).
- 1 CV Huiyin (Union of All « Yin's ») located in nucleus fibrosus area. It is essential in rebuilding of structural axis.
- LI11 Guishen Guixin a secondary resuscitation point
- 62 B Guilu Key point of extraordinary vessel yang qiao (foot of yang) presented as one of basis for equilibrium of vertical axis.

Conclusion and discussion

- This Treatment for behaviour diseases can appear as simple or simplist.
- All mentionned points are well knownd, with easy access on animals.
- Treatment based on TCM with a modern physical concepts sight, but we know has ever been a « chemical »* and physical medecine.
- Occidental concept of medecine, using drugs for fight against chemical illness of the body is over flowed by the idea of a Vibratory disagreement between The beeing and univers.
- Then pathology becomes a temporary loss of « correct »** form, witch kydney is the keeper. A loss of synchronicism beetween present time and initial energetic state that spirit leaved in mater, morphogenic memory, also named by osteopaths body image

Chemical sight of life

Our tools

- Acupuncture needles.
 - Our needles are able to realize connection with the Cosmos.
 - It create a micro vortex, cause a change of tissular density, modification of water structure in the body.
 - All moles of water are connected in the body, information is yet in all the body.
 - Our hands
 - Can they do exactly the same? Mental projection of anatomy is a very strong tool for heeling.

My experience

- I am convinced from a long time that Medicine cannot be other than Holistic, so in all my treatments I did general osteopathic work in first. This means a cranio sacral regulation. In all cases of pathology.
-
- After many years a question came: Why? Why after this kind of treatment, as initial symptoms were not completely resolved (all organic symptoms), owners could say to me :
 - « He seems much better, he becomes as before but with new good behaviour »
 - For example for an orthopedic disease « he is still a little limping, but he asks more for morning walking, and is more cheerful, »

- Reading JA LAVIER books gave me a solution,

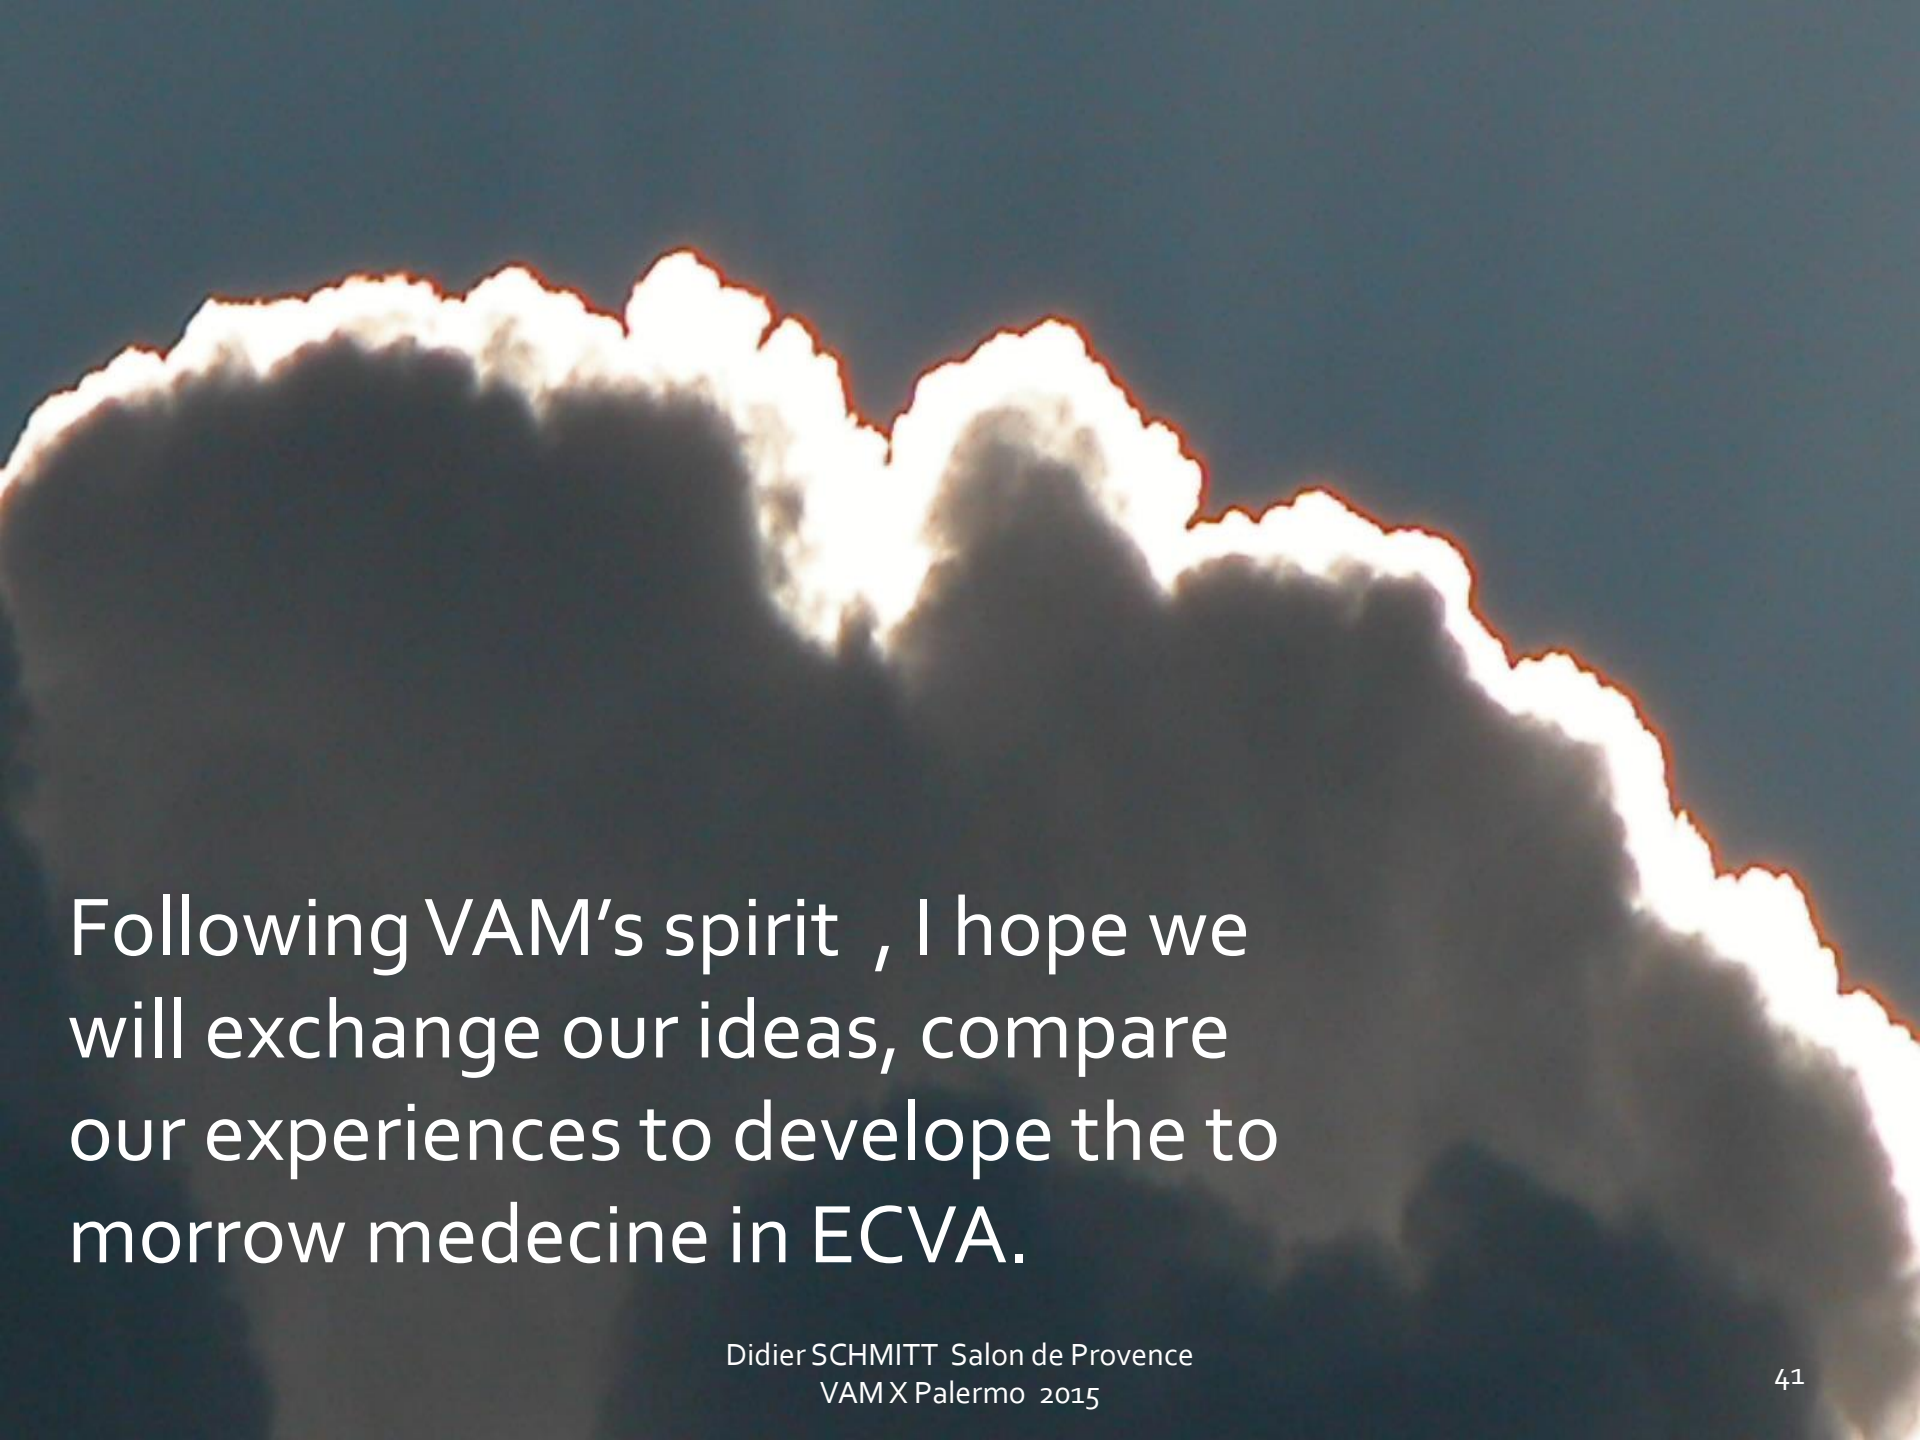

Description

- of énérgetic levels,
- of level pathologies
- good centrer definitied by well crossing of axis ,

compared with what i was doing in my practice every day.

Dooing cranio-sacral regulation at each time, by organic pathology (low levels) i led evident action on behaviour (high levels) , i understood the essential aspect in restauring « vertical axis of the body » for me it was THE answer!!

- I am sorry because this work is not accompanied with a hundred statistic cases, but it is the fruit of permanent attention and a carefull follow-up of numerous treated cases.
- So i will follow the Rollin Baker advice " Do not preach, share an experience "

Following VAM's spirit , I hope we
will exchange our ideas, compare
our experiences to develop the
tomorrow medicine in ECVA.

- A special thank to YAN ARTHUS BERTRAND
for his fotos of « the earth from the sky »

An abstract painting of a mountain landscape. The scene features rugged, brown and tan mountain peaks and ridges, partially covered with patches of white snow. Dark, silhouetted evergreen trees are scattered across the slopes and in the valleys. The overall style is expressive, with visible brushstrokes and a rich, textured appearance.
