ETHICAL NORMS All works must be based on ethical principles, approved by the ethical committee of the institution of reference and accepted by the Congress Scientific Committee. All works must follow the guidelines for Good Practice, available at (https://www.ema.europa.eu/docs/en_GB/document_library/Scientific_guideline/2009/10/WC500004343.pdf). Thus, experimental procedures should be avoided at all time as well as the useless suffering on live animals. Works that do not respect these principles will be automatically rejected. If any personal animals are used, it is necessary to document the informed consent of the owner.

The approved works will be discussed in the dedicated session of the Seminar through a power point presentation. The presentation will last 15 minutes + 5 for questions.
